PROFESSIONAL EXPERIENCE

RSG IT SOLUTION PVT. LTD.   **Kurukshetra Haryana**
Jr. Web Developer   **Dec 2021-15 June 2023**

➔ Lead Web Application Developer.

➔ Designing and building advanced web applications.

➔ Participated in all phases of the development life-cycle.

➔ Development and Maintenance of existing Web Applications.

➔ Investigate alternatives & technologies and present them for architectural review to support continuous improvement.

Project Experience :-

➔ Hotel Management Project (RSG Rooms24)
  - Designing a user-friendly booking interface allowing guests to check room availability, make reservations, and view booking details.
  - Implementing systems to manage room reservations, including functionalities like booking, modification, and cancellation of bookings.
  - Admin Dashboard : Creating tools for administrators to manage bookings, room availability, pricing, and user accounts.
  - User Dashboard : Providing users with a dashboard to manage their bookings, preferences, and account details as well as Displaying users' booking history, allowing them to view past reservations and upcoming stays.

➔ Bulk Mailing Web App (SMTP)
  - In this project I had to make the functionality to send the user notification by E-mail using the SMTP.

➔ 10+ Blogging Project
  - Design the user-friendly blogging landing page and user dashboard as well admin dashboard in which added the tools to add new blogs as well as update the blog etc.
